Getting to know myself...I’ve had the chance to participate in some of Washington University’s great professional development programs, including the Alumni Career Externship Program (ACE). Through the ACE program I was able to shadow an alum at Howard-Sloan in New York City. These experiences helped shape my goals and career aspirations, and helped me discover where I want to work and with what kind of people I want to work.

Bringing my story to life...My internship at the Embassy over the summer helped me see that I am interested in international trade and working abroad. I love the challenge of living somewhere new and I’ve really enjoyed interacting with expats.

Up next...I want to be involved in international trade and consult for emerging markets. Ideally, I would love to work in commercial service and work in Asia or Africa.

FROM PASSION SPRINGS PURPOSE

"Don’t be afraid to reach out to anyone or ask for referrals; you might underestimate how willing even complete strangers are to talk with or help you." Connie’s career tip

90 WUSTL study abroad programs in 44 different countries around the globe.

THIS WEEK’S OPPORTUNITIES
